Re: Weyerhaeuser Chlor-Alkali Plant, Longview, WA

Dear Mr. Nord:

During our telephone conference of January 25, 1995, I mentioned that copies of the draft RI/FS report and the Columbia River Sediment, Water and Biological Data Summary report for the above referenced site were provided to Chris Beaverson, the NOAA Coastal Resources Coordinator.

These documents were provided to Mr. Beaverson, for review and comment, as NOAA acts on behalf of the Secretary of Commerce as a Federal trustee for living and non-living natural resources in coastal and marine areas.

Enclosed is a copy of the comments received from Mr. Beaverson. Should you have any questions, please feel free to contact me at (206) 553-0323.

Sincerely,

A handwritten signature in cursive script that reads "Monica Rolluda".
